GENDER THINK-IN**

This Gender Think-In is inspired by the think-ins held by the Gay Liberation Front where progressive policy and innovative protest actions were devised through collective creative effort. The results of this think-in will be published by Martin Firrell Company as a policy paper mapping out an alternative future for gender.

GENDER TENDERNESS

Now enter imaginatively into a world where gender is regarded as something essentially private and intimate. Children are not assigned a gender at birth but society waits until children themselves are able - and wish - to choose. The law prohibits enquiry into someone's gender without their prior permission. The gender role system as we understand it today has fallen into disuse. People express many different kinds of gender.
